EDUCATION

University of New South Wales

Master of Information Technology, Major in Database Systems

Sydney, Australia

Feb 2024 – Dec 2026

University of Sydney

Bachelor of Computing, Major in Software Development

Sydney, Australia

Feb 2021 – Dec 2023

EXPERIENCE

Caregiver

Remote and Onsite

Jan 2023 – Dec 2025

Part-Time

- Helped plan daily routines including medications, meals, exercise, and mobility support.
- Communicated with nurses and doctors regarding treatment and care needs.
- Called and checked in regularly to support my grandmother's well-being.
- Shared caregiving responsibilities with a sibling to provide ongoing support.

PROJECTS

Personal Website | *JavaScript, React, HTML, Tailwind CSS, Git*

- Built a personal website to show my programming skills and projects.
- Included links to my projects and source code so my work is easy to access.
- Made the website responsive for both mobile and desktop using reusable components.
- Deployed the website using Vercel and connected it to GitHub for updates and bug fixes.

Task Manager | *Python, Flask, HTML, CSS, Git, Git Boards, Microsoft Teams*

- Helped create a task management tool to make assigning and tracking tasks easier.
- Worked with group members during university coursework to meet deadlines and project requirements.
- Helped implement features and review code during development.
- Used Git throughout the project to push my work, pull updates, and fetch the latest changes from the shared repository.

Movie Application | *JavaScript, React, HTML, CSS, Git*

- Built a movie application that displays current and past movies with relevant details.
- Used a public API to fetch movie data and React hooks to manage state in the application.
- Implemented responsive features so the application works across different screen sizes.

TECHNICAL SKILLS

Languages: JavaScript, Python, C, TypeScript, Java, SQL, HTML, CSS, Bash/Shell

Frameworks/Technologies: React, Flask, Spark, Hadoop, PostgreSQL, Linux, Unix

Developer Tools: Git, GitHub, VS Code, Visual Studio

Skills: Data Structures and Algorithms, Big Data Management, Project Management, Computing Usability and Security, Scripting
